OFFICE MEMORANDUM

Sub: Supreme Court order dated 11.08.2015 - Prohibition of Display of Aadhaar Number of residents in public domain

Demographic data - name, address, gender alongwith Aadhaar number has been recognised as a sensitive data and is a personal Information (PI), under Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011. Based on this position, in W.P. No. 494 of 2012 & connected cases (known as "Aadhaar related matters") Supreme Court was apprised by the Ld Attorney General for India that no personal data of aadhaar card holder is shared with any other person or Authority by the respondents. This fact has been recorded by Hon'ble Supreme Court in its order dated 11.08.2015, as under (Page 14 of the Interim Order dated 11-08-2015) :-

"...The learned Attorney General stated that the respondents do not share any personal information of an Aadhaar card holder through biometrics or otherwise with any other person or authority. This statement allays the apprehension for now, that there is a widespread breach of privacy of those to whom an Aadhaar card has been issued..."

2. Since Aadhaar numbers are being collected by various public as well as private agencies for delivery of services, it is hereby clarified that as per the above Supreme Court Order dated 11-08-2015, it is the responsibility of those agencies to:

- (a) Protect the identity of Aadhaar card holder by maintaining the necessary confidentiality of his Aadhaar number; and
- (b) To ensure that Aadhaar numbers are not posted, displayed, or made available in public domain such as internet, web, public notices etc. In case there is a requirement to publish a list of individuals by any department or any agency through a public notice, such list shall not contain Aadhaar numbers.
